2025

The 2nd Sustainable Maritime Industry Conference

Sailing Toward a Sustainable Future

The Transport General Authority in Saudi Arabia is organizing the 2nd Sustainable Maritime Industry Conference, one of the most prominent international maritime events. The conference aims to bring together a distinguished group of decision-makers, including ministers, ambassadors, and maritime industry leaders from around the world.

to promote sustainability and innovation in the maritime sector through:

Adopting cutting-edge maritime technologies

Strengthening global leadership of the maritime industry

Building capabilities and advancing maritime skills

Serving
as a platform for international
maritime collaboration

SMIC 2025 will spotlight the most pressing and transformative topics shaping the future of the maritime industry. Through expert panels, technical sessions and Workshop, the conference will explore:

MARITIME DECARBONIZATIO

SPEAKERS

Renowned industry leaders sharing insights and innovation

WORKSHOPS

Interactive sessions designed for skill-building and growth

SPONSORS

Support from top-tier companies and visionary partners

GLOBAL ATTENDANCE

A vibrant community of professionals from around the globe

Omar Iván Hernández COMMANDER IN CHEF, NATIONAL NAVY OF EL SALVADOR Ministry of National Defence

Ünal BAYLAN Director General for Maritime Affairs Ministry of Transport and Infrastructure, Turkie

General Manager Maritime Environment & Safety Transport General Authority (TGA)

Eng. Yousef Aldossary

MODERATOR

Lunch and Prayer

1:00pm - 2:00pm

Theme 1: Energy Efficiency in Shipping: Pathways For Emissions Reduction

★ Keynote Speaker

The 2nd Sustainable Maritime Industry Conference

2:00pm - 2:10pm

Eng. Suliman Al Mazroua

President

Saudi Ports Authority (MAWANI)

Executive Leader Insight

12:00pm - 12:30pm

Eng. Khalid Alhammad

President - Ship Management Bahri (National Shipping Company

Eng. Talal Al Shafaey

President's Assistant for Surveying & Geospatial Activities General Authority for Survey and Geospatial Information (GEOSA)

Eng. Ali Bin Saeed Al-Ghamdi National Center for Environmental Compliance (NCEC)

Prof. Maximo Q Mejia President World Maritime University

Eng. Kamal Mohammed Al Junaidi

Permanent Representative of the Kingdom of Saudi Arabia

MODERATOR

Theme 1: Energy Efficiency in Shipping: Pathways For Emissions Reduction

Keynote Speaker

2:45pm - 2:55pm

Acting Chief - Integrated Planning Officer Bahri (National Shipping Company of Saudi Arabia)

Policy, Finance, And Technological Solutions For Energy Efficiency

(L) 2:55pm - 3:30pm

Jon Inge Buli Head of Offshore SGA

Henning Graman Managing Owner GSR Services GmbH. Germany

Khalid Bichou Visiting Professor Imperial College London

Gary Hubbard FCILT **SVP Commercial & Operations** The Biofuel Company LTD

Ms. Lydia Ngugi Head of the Maritime Technology Cooperation Centre for Africa MTCC Africa - Maritime Technology Cooperation Centre

Dr. Ahmed Aljizani Co-Founder **Advisory Channels**

MODERATOR

Theme 2: Maritime Insurance and finance

₩ Keynote Speaker

The 2nd Sustainable Maritime Industry Conference

3:30pm - 3:40pm

CEO of the Mutual Marine Services Al Mushtaraka Group

The Evolving Role of Insurance and Green Finance in Sustainable Maritime Growth

3:40pm - 4:10pm

Hamdy Rakha

Manager of Regional Business Development for the Middle East American Bureau of shipping (ABS)

Angelica M Baylon

Mubarak Group

Maritime Academy of Asia and

Ambrish Bansal Senior VP & Global Head Management Consulting & ESG Advisory

Marwan Juma Mubarak Deputy CEO

Ignasi Ferrer CEO and co-founder Ocean Ecostructures

MODERATOR

The 2nd Sustainable Maritime Industry Conference First Day - 3 Sep

Workshop - 1

Implementing decarbonization strategies in shipping operations.

Workshop - 2

1:30pm - 2:30pm

Creating a sustainability roadmap for small to medium-sized maritime enterprises.

Workshop - 3

2:30pm - 3:30pm

Underwater Noise Reduction: A Win Win for Shipping Climate and Biodiversity Goals

The 2nd Sustainable Maritime Industry Conference First Day - 3 Sep

Gala Dinner

7:00pm - 9:00pm

Site Visits

1:30pm - 4:30pm

Jeddah Islamic Port

King Abdulaziz University (KAU)

CONFERENCE Agenda

2nd Day

04 Sep. 2025 Thursday

The 2nd Sustainable Maritime Industry Conference

Second Day - 4 Sep

Theme 3 : Maritime Digitalization, Automation and Cybersecurity

🔅 Keynote Speaker

9:00am - 9:10am

Director General International Mobile Satellite Organization (IMSO)

9:10am - 9:20am

Rear Admiral Luigi SINAPI

Director General International Hydrographic Organization (IHO)

Theme 3: Maritime Digitalization, Automation and Cybersecurity

Panel Discussion

Rear Admiral Luigi SINAPI Director General International Hydrographic Organization (IHO)

James Collett Managing Director Ranmore advisers

Dr. Hanan Kaffoura Ambassador M.E.N.A. Region Italian National Observatory for Sea Protection ONTM - Rome

VP - Sustainability and GRC Bahri (National Shipping Company of Saudi Arabia)

Capt. Anwar Farah

Abhay Nimbalkar Greenfield Marine Technologies

Farah Saud AlGhamdi Director, Corporate Communications & CSR Rawabi Holding

MODERATOR

Break

(L) 10:20am - 10:35am

Second Day - 4 Sep The 2nd Sustainable Maritime Industry Conference

William Azuh Panelist. Cybercrime In The Digital Age Independent Maritime Consultant for Maritime Administrations

(Al-Balad) Historic Jeddah

Eng. Khalid Alhammad

President - Ship Management Bahri (National Shipping Company of Saudi Arabia)

Khalid holds a B.Sc. in Electrical & Electronics Engineering from Oregon State University. With over 30 years of experience, he began his career at Saudi Aramco and later advanced through key leadership roles at Bahri, culminating in his appointment as President of Bahri Ship Management in 2023.

Eng. Ali Bin Saeed Al-Ghamdi

CEO

National Center for Environmental Compliance (NCEC)

With over 25 years of professional experience in the fields of Environment Sustainability, Industrial Safety, and Health. Mr. Al-Ghamdi has established himself as an expert in Environmental Risk Assessment, Compliance Occupational Health and Environmental Regulations Safety, Responsible Care, Policy, Legislation, and Environmental Performance.

Eng. Talal Alshafaey

President's Assistant for Surveying & Geospatial Activites General Authority for Survey and Geospatial Information (GEOSA)

Eng. Talal Alshafaey is the President's Assistant for Surveying & Geospatial Activities at GEOSA. He supports sustainable maritime operations through advanced geospatial and environmental stewardship across Saudi 2030 technologies, contributing to Vision Arabia's coastal regions

Prof. Maximo Q Mejia

President World Maritime University (WMU)

Prof. Maximo Q. Mejia Jr. is President of the World Maritime University (WMU), appointed by the IMO Secretary–General. He is a seasoned expert in maritime law and policy, with over years of experience in academia and public service, including his role as 30 Director–General of the Maritime Industry Authority in the Philippines. He holds advanced .degrees from WMU, Lund University, Tufts University, and the U.S. Naval Academy

Mr. Taher Aldabbagh

Acting Chief - Integrated Planning Officer Bahri (National Shipping Company of Saudi Arabia)

Taher AlDabbagh is a Saudi business leader driving sustainability, innovationand digital transformation at Bahri, the Kingdom's national shipping company. He previously led green shipbuilding initiatives at IMI and held senior roles at Mobily Microsoft, and Unilever. He serves on national committees, holds an Executive MBA, and completed leadership programs at Harvard, Stanford, INSEAD, and NUS.

Jon Inge Buli

Head of Offshore SGA Wartsila

10 Years with Wartsila Marine working toward the Oil & Gas and Offshore markets. Current focus is business development, solutions and decarbonization in the offshore sphere. 5 years as a researcher and shipbroker covering the offshore markets 5 years as a credit analyst and relationship manager for DVB Bank focused on marine and offshore MSc in Shipping Trade and Finance from Bayes School of Business. BS in Finance/Marketing from U of Utah

Khalid Bichou

Visiting Professor Imperial College London

Khalid Bichou is a globally renowned expert in ports and maritime logistics with over 33 years of experience across executive, advisory, and academic roles. He has led major international port transactions, developed national logistics strategies, and advised governments, investors, and institutions on sector reforms. As co-founder of PORTeC and GPRA, he combines consultancy with academic research, serving as Visiting Professor and publishing extensively in the field.

Gary Hubbard FCILT

SVP Commercial & Operations The Biofuel Company LTD

Gary Hubbard is the Senior Vice President at The Biofuel Company of Saudi Arabia, leading commercial and operational strategy for the GCC's largest producer of European-compliant net zero biofuel. With global experience across six continents, he has held senior roles at major logistics firms including MAERSK, DHL, and Hapag Lloyd, specializing in sustainable supply chain optimization and strategic planning.

Henning Graman

Managing Owner GSR Services GmbH, Germany

An environmental engineer with international qualifications, currently leading GSR Services GmbH and serving as a Guest Professor at the World Maritime University. His previous roles include senior positions in strategic and environmental research at Germanischer Lloyd, environmental officer at AIDA Cruises, and project manager in maritime environmental legislation.

Ms. Lydia Ngugi

Head of the Maritime Technology Cooperation Centre for Africa MTCC Africa – Maritime Technology Cooperation Centre

Ms. Lydia Ngugi is the Head of MTCC Africa, where she leads regional efforts to advance low-carbon and energy-efficient shipping solutions. With expertise in international maritime law and marine environmental governance, she has contributed to policy development and capacity-building across Africa. Her work supports the IMO's global climate initiatives and aligns with sustainable development goals, positioning her as a key figure in promoting green maritime practices throughout the continent

Hassan Omar Badehidoh

CEO of the Mutual Marine Services Al Mushtaraka Group

Hassan Omar Badehidoh is the Deputy General Manager and Partner at Mutual years in P&I 30 Marine Services Al Mushtaraka Ltd in Saudi Arabia. With over insurance, he specializes in maritime claims and liability issues. He holds an LLM from City University, London

Hamdy Rakha

Manager of Regional Business Development for the Middle East and Africa American Bureau of shipping (ABS)

Hamdy Rakha is a Principal Surveyor at the American Bureau of Shipping (ABS), based in Saudi Arabia. He has over a decade of experience in maritime inspection, serving as an ISM and ISPS Auditor, MLC Inspector, and Senior Marine Surveyor. Mr. Rakha holds a Bachelor of Engineering in Mechanical Engineering from Alexandria University, and is recognized for his expertise in international shipping standards and regulatory compliance

Angelica M Baylon

Director

Maritime Academy of Asia and the Pacific

Dr. Angelica M. Baylon is a distinguished maritime academic and policy expert, holding multiple master's and doctoral degrees with honors. She has led national research projects that influenced key shipping policies in the Philippines and holds leadership roles in international maritime organizations such as Global MET, IAMU, NI, IMarEST, and APEC SEN. Formerly Executive Maritime Dean and Director of Research, she now serves as External Relations Director at the Maritime Academy of Asia and the Pacific.

Ambrish Bansal

Senior VP & Global Head Management Consulting & ESG Advisory Lloyd's Register (LR)

Ambrish Bansal is a global strategy and transformation leader with 19 years of experience across consulting and the energy sector. He has led major initiatives at KPMG, Accenture, and Reliance Industries, and currently serves as Senior Vice President at Lloyd's Register, overseeing global consulting and ESG advisory. He holds an MBA in Sustainability Management and is a certified PMP.

Marwan Juma Mubarak

Deputy CEO Mubarak Group

Marwan Juma Mubarak is a professional MMA fighter from the United Arab, 2015 in December 3 Emirates. He made his debut at Hard Knox Fight Night 0 competing in the welterweight division. His professional record stands at .loss 1 wins and

Laurent Parenté

Director General International Mobile Satellite Organization (IMSO)

Laurent Parenté holds advanced degrees in International Business, Negotiation, Law, and International Relations. Currently serving as Director General of the International Mobile Satellite Organization (IMSO), he previously led Vanuatu's Permanent Mission to the IMO for nearly two decades, representing the country before key maritime and environmental bodies. His leadership includes chairing the IMO Technical Cooperation Committee, coordinating Vanuatu's successful IMO Council campaign, and serving as commissioner in regional fisheries organizations.

Rear Admiral Luigi SINAPI

Director General International Hydrographic Organization (IHO)

Rear Admiral Sinapi is an accomplished naval officer and hydrographer, currently serving as Director of the International Hydrographic Organization since 2020. He previously led key vessels and departments within the Italian Navy and served as Director of the Italian Hydrographic Institute. Holding advanced degrees in physics, diplomacy, marine geomatics, and strategic studies, he has taught at several Italian universities and published widely in the field.

James Collett

Managing Director Ranmore advisers

James Collett is a maritime technology adviser with a strong leadership background, having served as Managing Director at Northrop Grumman Sperry Marine and Head of Mobility & Energy at Intelsat. He spent 13 years at Inmarsat, where he led the launch of FleetBroadband. He holds a BSc in Chemistry and began his career in polymer industry sales.

Dr. Hanan Kaffoura

Ambassador M.E.N.A. Region Italian National Observatory for Sea Protection ONTM - Rome

Dr. Eng. Hanan Kaffoura is a maritime expert specializing in sustainable port development and international maritime traffic. She serves as MENA Ambassador for ONTM, E-Consultant for the IMO, and Board Member of DCMMI, while also advising Italy's Ministry of Transport. With a PhD in Sustainable Port Planning and multiple advanced degrees, she lectures at the University of Bologna and actively contributes to global maritime organizations.

Capt. Anwar Farah

VP - Sustainability and GRC Bahri (National Shipping Company of Saudi Arabia)

Captain Anwar Farah is a maritime executive with over 25 years of experience. He held key roles at Saudi Aramco, Vela, and Aramco Trading, and now serves as Vice President of Sustainability and GRC at Bahri. He holds a Master Mariner certification and contributes to maritime development in Saudi Arabia.

Abhay Nimbalkar

CEO Greenfield Marine Technologies

Capt. Abhay Nimbalkar is a seasoned maritime professional with over three decades of experience in the Maritime industry including working in a corporate role with ADNOC. He serves currently as the CEO and Founder of Greenfield Marine Technologies, a company dedicated to integrating artificial intelligence and digital solutions to promote sustainability and operational efficiency in maritime operations.

William Azuh

Panelist. Cybercrime In The Digital Age Independent Maritime Consultant for Maritime Administrations

A former senior IMO official and now an independent maritime consultant, he works with governments and administrations across Africa and beyond. He focuses on the growing threat of cybercrime in the maritime sector and is deeply engaged in strategies to address cyber risks at national, regional, and global levels.

Chris Trelawny

Deputy Secretary General Interportpolice Counter Terrorism & Security

Strategies for effective maritime security through cooperation and coordination, as an enabler for sustainable maritime and blue economy development.

Dr. Alaa U. Khawaja

Deputy Director Of The International Maritime Training Center King Abdulaziz University (KAU)

Dr. Alaa Khawaja is an Assistant Professor at the Faculty of Maritime Studies Nautical Science Department, KAU. He is the technical deputy director of the International Maritime Training Center. With long management level experience, and Specialization in Maritime Security and System Engineering, Dr. Alaa's work takes particular interest in applications of Cybersecurity in the Maritime industry, and investigation of Al-powered prototypes for efficient and secure shipping.

Demetres Armanes

ABS Technology Manager, Engines and Controls Center American Bureau of shipping (ABS)

Demetres Armanes is a Managing Principal Research Engineer at ABS, with a Ph.D. in Intelligent Control from the University of Liverpool. He leads projects in smart automation, hybrid-electric marine systems, and HiL testing. He also represents Greece at ISO, .contributing to global standards for autonomous shipping

Kumaraswamy Margabandu

Innovation & Technology Manager, India, Middle East India & Africa Bureau Veritas

Kumaraswamy Margabandu is the Technology & Innovation Manager at Bureau Veritas .Marine & Offshore for India, the Middle East, and Africa years of experience in LNG projects, vessel conversions, and maritime 27 He has over .operations. He led the first successful conversion of a vessel to high-pressure LNG (MEGI) .Margabandu also contributes to global LNG standards through his work with SIGTTO

Mary Anne

CHAIRMAN Archipelago Philippine Ferries Corporation (APFC)

Mary Ann Pastrana is the Chairperson of Archipelago Philippine Ferries Corporation (APFC), the company behind FastCat, which is transforming inter-island travel across the Philippines. The company has grown to 18 vessels as of 2025, with a target of 30 vessels by 2030, aligned with the company's long-term growth strategy, Vision 2033. This expansion supports improved connectivity between islands, regional economic integration, and the modernization of the maritime transport industry. =

Dr. Mustafa Başkara

CEO

Ankara University, National Center for the Sea and Maritime Law

The rise of Maritime Autonomous Surface Ships (MASS) is reshaping the maritime industry by enhancing efficiency, safety, and sustainability. However, current international regulations—designed for crewed vessels—face challenges in adapting to this shift. The speech explores legal responses to MASS, covering autonomy definitions, convention applicability, regulatory efforts, and strategies for aligning global governance with emerging technologies.

Babak Jabbari

General Manager Zamil Offshore Services

Babak holds a BS in Marine Engineering from Kalmar Maritime Academy, with additional studies in Mechanical Engineering and Nuclear Operations. With over 32 years of global maritime experience, including 20 years in executive roles, his career spans cargo carriers, cruise liners, and seismic exploration vessels.

Jevon P Chan

Senior Technical Engineer American Bureau of shipping (ABS)

Jevon P. Chan is a maritime researcher at Newcastle University, specializing in human-automation interaction and autonomous vessel safety. He holds a degree in Marine Technology and conducts simulator-based studies to improve ship operations. His work aims to enhance situational awareness and training for future seafarers in automated environments

Dr. Jose Matheikal

Director of Technical Cooperation and Implementation Division International Maritime Organization (IMO)

Dr. Jose Matheickal heads the Technical Cooperation & Major Projects Section at IMO's Marine Environment Division. With 25 years of experience, he has led major environmental projects, public-private partnerships, and international cooperation efforts in marine sustainability. He holds a PhD from Griffith University and studied environmental engineering at IIT India.

Dr. Faisal Alsaaq

Dean, Faculty Of Maritime Studies King Abdulaziz University (KAU)

Dr. Faisal Alsaaq is an Associate Professor and Dean of the Faculty of Maritime Studies at King Abdulaziz University. He also serves as General Supervisor of the Marine Vessel Center and the International Maritime Training Center. With over 25 years of experience in hydrographic surveying, geospatial science, and marine project management, Dr. Alsaaq has led numerous research and survey projects in the Red Sea and the Arabian Gulf.

Eric Roger Dawicki

President Northeast Maritime Institute

Eric R. Dawicki is the President and CEO of the Northeast Maritime Institute and the .Commonwealth of Dominica Maritime Registry

years, including work with 25 He has led maritime education and regulatory reform for over the IMO and U.S. Coast Guard

Dawicki is known for pioneering online training systems and advancing international standards for seafarer compliance

Dr. Hanaa AlMoaibed

Non-Executive Board Director Rawabi Holding

Dr. Hanaa AlMoaibed is a sociocultural consultant specializing in education, labor markets youth, gender, and sustainability across Saudi Arabia and the Gulf. She holds a PhD from UCL and an MSc from LSE, and serves on several boards in the energy and education sectors including Rawabi Holding and United Safety. She is Vice Chair of ZADK's Advisory Board and a member of the British Society for Middle Eastern Studies.

Sanjam Gupta

Director Sitara Shipping Ltd

Sanjam holds an MBA and serves as a gender expert with the International Maritime Organization (IMO) and the United Nations ESCAP, contributing to global initiatives that promote gender equity in the maritime sector.

Milhar Fuazudeen

Director FinMar Consultants Limited, Surrey, United Kingdom

Milhar Fuazudeen is a maritime expert with over 15 years at sea, including six as Chief Engineer. He served at the IMO from 1997 to 2018 as Head of Maritime Training specializing in STCW implementation, vessel safety, and human element issues. Since retirement, he works as an independent consultant in maritime safety, education and seafarer certification.

Gina Panayiotou

Founder & CEO Oceans Arena

Gina Panayiotou is maritime lawyer turned award-winning ESG strategist. With 15+ years of experience in organisations such as the Hartmann Shipowning Group, MSC Cruises, the UN International Maritime Organization (IMO) and the office of the Greek Prime Minister's Special Envoy for the Ocean, she is now the Founder & CEO of ESG \Consultancy, Oceans Arena.

Dr. Omaimah Bamasag

Deputy for Transport Enablement Transport General Authority (TGA)

Dr. Omaimah Bamasag is the Deputy of Transport Enablement at Saudi Arabia's Transport General Authority and a Professor of Cybersecurity at King Abdulaziz University. She holds a Ph.D. in Computer Science from the University of Manchester and completed postdoctoral research at MIT. Her expertise spans IoT security, smart mobility systems, and national transport innovation initiatives.

Lisa Simone de Grunt

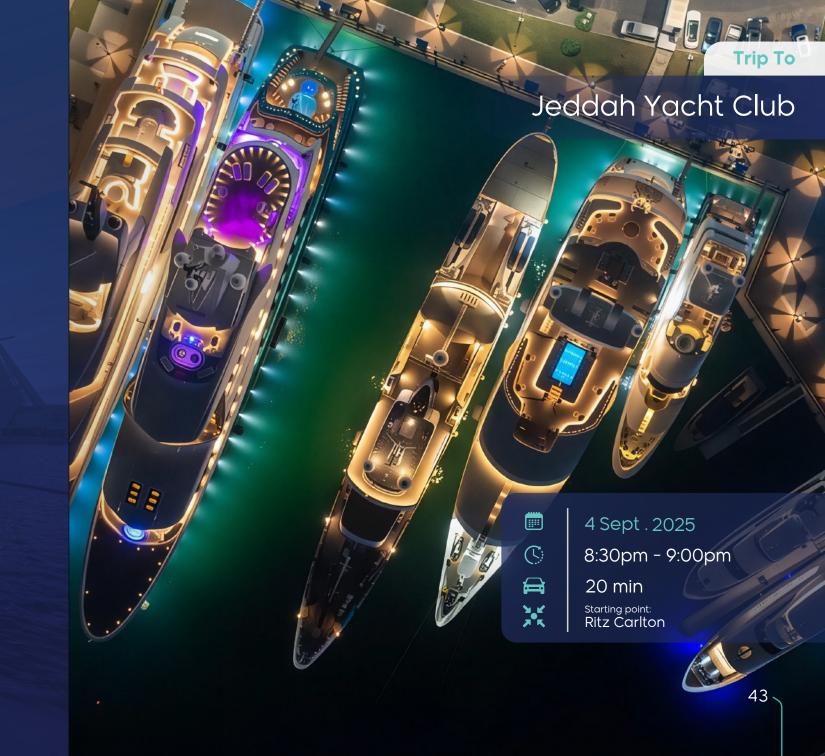

Director of Programmes World Ocean Council (WOC)

Lisa Simone de Grunt is a global expert in maritime sustainability, leading initiatives at the World Ocean Council to promote low-carbon ocean development. Her work focuses on green shipping, marine spatial planning, and innovative financing to support inclusive and responsible growth in the blue economy.

The 2nd Sustainable Maritime Industry Conference

Unlock More with Saudi Global Ports, the Gateway To Growth

Saudi Global Ports

is Saudi Arabia's leading port operator and a trusted partner of the region's ports and logistics ecosystem. SGP operates and manages a diverse portfolio including the deepsea container terminals and multipurpose terminals at King Abdulaziz Port Dammam, multipurpose terminals at Jubail Commercial Port, King Fahd Industrial Port and Ras Al-Khair Port, three rail-linked terminals under the Riyadh Dry Port Ecosystem, and is also developing the Dammam Integrated Logistics Zone which will complement the terminals to drive supply chain integration and resilience.

SGP collaborates with customers and partners to unlock more reliable, innovative, and sustainable supply chain solutions, enabling the eastern coast to be Saudi Arabia's gateway to growth. SGP is a partnership between the Public Investment Fund (PIF), PSA International (PSA) and the shareholders of Al Blagha Holding for Investments (ABHI).

In line with Saudi Vision 2030, the Kingdom is advancing its position as a global logistics hub by fostering economic growth and sector diversification. Through the collaboration of the Ministry of Transport and Logistics Services, TVTC, and NIDLP, a comprehensive training ecosystem is being developed to qualify national talents, localize expertise, and enhance the Kingdom's standing in the global logistics landscape.

Over 48 years of excellence in the Offshore Industry

Zamil Marine has a joint venture with Mermaid Maritime to offer end-to-end project management solutions for subsea work. The "Zamil Mermaid Offshore Services" was established to undertake Saudi Aramco projects related to inspection, maintenance, installation, fixing offshore facilities, underwater facilities and underwater welding works.

Zamil Offshore Construction, through its Joint Venture SBS Oceanics, also provides full EPCI services for small and medium sized brownfield modifications and upgrades. The joint venture has been awarded numerous projects being executed under this model from Saudi Aramco.

Zamil

THE MIDDLE EAST'S MOST DIVERSIFIED OFFSHORE FLEET OWNER, OPERATOR AND SERVICES PROVIDER

SAILING TOWARD A GREENER FUTURE

For over four decades, Bahri has served as Saudi Arabia's national shipping company and one of the world's foremost maritime players.

With a diversified fleet and operations spanning multiple continents, Bahri connects global economies and industries worldwide while supporting the Kingdom's Vision 2030 to establish Saudi Arabia as a global logistics hub.

Our unwavering commitment to sustainability, innovation, and operational excellence is fully aligned with the International Maritime Organization's (IMO) decarbonization goals and vision of 2030, driving us to reduce emissions, safeguard the environment, and create long-term value for our partners and communities.

Together, we are shaping a resilient and sustainable future for the maritime industry.

Bahri's Global Maritime Network

100+ vessels and tankers worldwide

One of the world's largest VLCC operators with **50** vessels

1.7M DWT chemical tanker fleet capacity

Our Sustainability Highlights:

Emission Reductions:

On track to reduce GHG emissions by 20-30% by 2030, 70% by 2040, and reach net-zero by 2050, powered by advanced fleet efficiency programs and alternative fuels R&D.

Smart Fleet Innovation:

Pioneering SMARTShip technology on 73 vessels, delivering real-time performance monitoring, optimized routing, and remarkable fuel savings.

Protecting Marine Biodiversity:

Proudly achieved zero oil spills for consecutive years, with 100% compliance to IMO D2 ballast water standards.

Water Security Leadership:

- Launching the world's largest mobile desalination barges, set to deliver150 million liters/day by 2025, ensuring climate resilience and supporting communities.

Empowering Human Capital:

Through Bahri's Cadet Program, we are shaping the next generation of Saudi seafarers to lead a sustainable maritime future.

Strategic Impact

Anchored in sustainability, Bahri is protecting marine ecosystems, empowering future maritime leaders, and driving sustainable global trade.

"At Bahri, innovation and sustainability are our compass as we sail toward a better tomorrow for global maritime trade."

RAWABI WAVALLIANZ

TRANSFORMING MARINE OPERATIONS WITH SUSTAINABLE INNOVATIONS

RAWABI VALLIANZ OFFSHORE SERVICES

Rawabi Vallianz Offshore Services (RVOS) is a Saudi company determined to become the leading Offshore Support Services provider in the region. Having built a solid network of business relationships and expertise over the last four decades leveraging Rawabi Holding Group, RVOS effectively harnesses individual strengths to provide seamless, synergistic services to the Offshore Oil and Gas Industry.

RVOS is committed to providing value-added services to clients by focusing on safety, quality, on-time delivery, and superior customer support, thereby establishing successful long-term partnerships that go beyond the completion of projects.

Our services include:

- Offshore Engineering & Construction Services
- Supply Anchor Handling Tug Support & Safety

Vessels (AHTSS)

- · Platform Supply Vessels (PSV)
- Accommodation Barges
- Utility Boats
- Offshore Well-Testing Jack-Ups
- Offshore Floating Storage, Mud-Mixing and Support Vessels
- Subsea Pipe and Cable Laying
- Ship Management Services
- · Onshore and Offshore Manning

VOLUNTARY CARBON MARKET

Driving sustainable outcomes for the Marine sector.

Founded in **2022** by the **Public Investment Fund (PIF)** and the Saudi Tadawul Group, VCM is building a high-integrity voluntary carbon market with **global impact**.

OUR MISSION

- Drive climate action
- Improve livelihoods in the Global South through a transparent, high-quality carbon credit market.

We connect businesses, governments, and marine industry players with **verified climate solutions** that cut emissions and enable sustainable growth.

WHY CARBON MARKETS MATTER

- Climate change is already disrupting economies and communities.
- The marine sector is among the highest emitters worldwide.
- In MENA, temperatures may rise by 6°C by 2100, worsening water scarcity and economic disruption.
- Pakistan's 2022 floods displaced 33 million people urgent action is needed.

CARBON MARKETS **ENABLE:**

- Scalable Net Zero for nations and corporates.
- High-integrity credits that safeguard credibility.
- Early movers to access quality credits and climate leadership.

OUR CORE SERVICES

VCMEXCHANGE PLATFORM

Secure, tech-enabled marketplace to trade and retire verified credits.

- Multiple trading options, transparent pricing, seamless registry integration.
- Participants: corporates, developers, financial institutions, governments, and enablers.

OPPORTUNITIES

Channeling capital into high-quality climate projects across MENA, Africa, and beyond for long-term impact.

ADVISORY SERVICES

Expert guidance to turn Net Zero goals into measurable results:

- GHG accounting & ESG reporting
- Cost-saving decarbonization strategies
- Net Zero & offsetting solutions
- Carbon project development

JOIN US

VCM provides the tools, platform, and expertise to transform climate risk into opportunity.

Riyadh, Saudi Arabia
